EXPERIENCE

7.2018 - Present

Full Time Freelance, Chicago IL

I lead several design and development projects across six independent clients.

11.2016 - 7.2018

NewFounders, Chicago IL

Led design, development, and product. Oversaw office functions (payroll, legal, etc). Guided several products from conception to completion and acquired several thousand active users.

3.2016 - 2.2017

Wellright, Chicago IL

Led product design efforts across web and mobile. Implemented front-end frameworks for web services. My updates to UI/UX resulted in over \$1M in sales for first time in company history (more than 100% increase YoY).

1.2015 - 1.2016

Fooda, Chicago IL

Led product alongside CTO. Managed team of 11 (across 5 products), including local, remote, and international teams. Overhauled web and mobile products that coincided with a rapid customer growth and revenue exceeding \$1M per month.

11.2012 - 3.2013

Uppd, Chicago IL

Built a multi-platform, interactive advertising application that leveraged the social graph and incentivized direct product trials. Raised \$25,000 and qualified as finalists for Chicago TechStars 2014.

11.2006 - 1.2010

On the Rise, Chicago IL

Envisioned an indie music platform that empowered musicians to record, promote, and sell their music without a record label. Managed two developers while mentored by Max Levchin (PayPal), Genevieve Thiers (SitterCity), and Tom Herman (Startup.com).

EDUCATION

2011 - 2014

Chicago-Kent College of Law

Juris Doctorate

Bar Admission: Illinois

2008 - 2010

University of Illinois

Bachelors in Communication
